Project/Program Title	Online platform for people with disabilities
Implementing subject (and partner if applicable)	Forumi Kosovar i Aftësisë së Kufizuar - FKAK
NGOs contacts: Address, email, telephones, website	Str. Tring Smajli, No.47, 10000, Pristina, Kosovo info@kdf-ks.org www.kdf-ks.org https://www.facebook.com/Kosova-Disability-Forum-1023476471130453 +381 38 400 055
Implementation period	Start date: 01/09/2020 End date: 31/12/2020
Budget supported by the program	4,900.00 EUR
Geographical coverage	Kosovo
Summary of the intervention	Taking in consideration that people with disabilities are a most in danger category of people during any kind of emergency, regardless being natural or civil, the purpose of this project is to establish a platform that will cover the territory of Kosovo. Through this platform persons with disabilities can receive all the necessary information in a simplified language and easily accessible, regarding the direct effect that the emergency situation may have on this category of persons. Since the COVID-19 pandemic is currently creating an emergency situation, the platform will serve to provide information on COVID, registration of services that children with disabilities can receive in case of isolation (psychological, rehabilitation, social services), how to protect themselves from the pandemic and the list of experts who can provide services to them with their contact details. The platform will also include information on other emergencies, registration as donors (financial means or other assistance from individuals), filing complaints about institutions or services for people with disabilities, contact numbers for any other information, etc.
